

## Discharge Summary

Name	Louis Oneil
Birth Date	08/14/1999
Gender	male
Post Code	806

Admission Date	01/01/2020
Discharge Date	01/14/2020

### Medications

COLCHICINE
METHYLERGONOVINE MALEATE
PREMARIN
SODIUM CHLORIDE 0.9%

The patient was diagnosed with Systemic sclerosis [scleroderma] and showed symptoms of a motor neuron death. She was found to have been on a computer virus infection.

The doctor was also concerned about the spread of the virus to children in her care. He ordered his team to report the case to the police and order further tests to prove the patient was indeed infected with the virus. The doctor told the children that if they kept talking, they could potentially become infected with the virus in

The patient was given ALPRAZOLAM (15 mg orally in oral and 6 mg intravenously in the supine position). The patient underwent two other elective procedures, which were performed for three days following delivery. One of these was performed on the 2nd day of the procedure and the other on the 3rd day of the procedure. All three procedures were repeated, and the patient had an improved response.

#### CONCLUSION:

The patient was diagnosed with Other and unspecified arthropathy and showed symptoms of hypothermia and respiratory distress. The patient died on 12-28-2006. The clinical presentation of the disease was improved,

A report in the journal, Circulation, showed that the diagnosis of arthropathy is associated with low levels of oxygen saturation during normal working hours, and in some cases there was no evidence of any hypothermia and respiratory distress.

The patient's father, Dr. John G. Lauer, was also charged with

The patient was given ARISTOCORT A single dose of 10 mg/kg of vitamin C during the treatment (1 day prior to the starting procedure) and 2 weeks later (30 days prior to the start of the procedure). In the first 3 weeks of the trial, an increasing dose of vitamin C (5 mg/kg) was provided and was given for 7 days after the starting procedure. The patient was given ARISTOCORT B single dose of 10 mg/kg of vitamin
